Professional Summary

Full-Stack Developer specializing in the MERN stack and Next.js, experienced in building scalable web applications and secure REST APIs. Strong understanding of the software development lifecycle with hands-on experience in real-time systems, API integrations, and automation. Passionate about clean architecture, performance optimization, and delivering efficient, user-friendly solutions.

Work Experience

RCK Techies | Full Stack Developer Intern

Dec 2025 – Mar 2026

- Migrated 5+ ticketing systems from platforms including Jira, Zoho Desk, ManageEngine, and Zendesk to Freshservice/Freshdesk.
- Automated migration workflows using APIs to reduce manual effort and improve data transfer accuracy.
- Migrated large-scale ticket data including users, conversations, attachments, and metadata with high accuracy.
- Ensured data integrity and smooth transition with minimal downtime.
- Contributed to full-stack development using React.js and Node.js.
- Gained hands-on experience in API integrations and automation workflows.

ZED INDEX | Software Developer Intern

June 2025 – July 2025

- Developed and debugged web application features using React.js, Node.js, and Next.js.
- Collaborated on scalable frontend and backend modules.
- Gained experience in real-world development workflows and deployment.

Skills

- **Languages:** JavaScript, Java, Python, C.
- **Frontend:** React.js, Next.js, Tailwind CSS, Framer Motion, Redux., HTML, CSS, Bootstrap.
- **Backend:** Node.js, Express.js, Next.js, TypeScript, REST APIs.
- **Version Control:** Git, GitHub.
- **Core Strengths:** API Integration, Debugging, Performance Optimization, Scalable Architecture
- **Soft Skills:** Attention to detail, Effective communication, Time management, Teamwork, Team management, Adaptability, and Continuous learning.

Education

Bachelor of Engineering (CSE)

Mount Zion College of Engineering and Technology | 2022 – 2026

CGPA: 8.1

Higher Secondary Education (Bio Maths)

MCTRM Ramanathan Chettiyar School | 2021 – 2022

Percentage: 82%

Projects

Travelon – The Future of Tourist Safety

October 2025 – Present

Tech: Next.js, Node.js, Express.js, Flutter, SQL Server, Blockchain, AI, IoT

- Developed a smart tourist safety platform using AI-based geofencing and IoT wearable devices for real-time tracking.
- Built an AI-powered tourist safety platform with real-time tracking and geofencing alerts.
- Designed scalable REST APIs for efficient data processing and communication.
- Integrated blockchain-based digital identity for enhanced security.
- Developed a responsive dashboard using Next.js for real-time monitoring.

E-commerce Platform:

January 2024 – February 2024 - <https://github.com/JaasirAhamed15/E-commerce>

Tech: MongoDB, Express.js, React.js, Node.js, JWT.

- Developed a scalable eCommerce platform with role-based authentication and admin dashboard .
- Implemented product browsing, cart management, and secure payment workflow.
- Optimized image handling and improved application performance.
- Delivered a smooth user experience with efficient backend architecture.

Blogify – Social Blogging Platform

June 2025 – July 2025 - https://github.com/JaasirAhamed15/smart_evm

Tech: Next.js, MongoDB, Tailwind CSS, NextAuth.

- Developed a full-stack blogging platform with authentication and content management.
- Enabled users to create, edit, and interact through comments and search features.
- Improved user engagement with fast and responsive UI design.

Autocart – Smart Shopping System

April 2024 - June 2024

Tech: Flutter, Firebase, Arduino, Computer Vision.

- Developed an autonomous shopping cart with real-time product scanning and digital billing.
- Implemented YOLOv4-based object detection for navigation and obstacle avoidance.
- Built admin-side software for real-time monitoring and control.
- Reduced checkout time and enhanced overall shopping efficiency.
- **My Contribution:** Built the Software application for Admin interaction and real-time monitoring.

Certifications

- Full Stack Developer – RCK Techies | **2026**
- Next.js – ZED Index | **2025**
- React.js & Advanced React – Coursera / Guvi | **2025**
- HTML, CSS, JavaScript – Guvi | **2024**
- Python – SkillRack / BTree | **2024**
- MongoDB – MongoDB University | **2025**
- Flutter Development – Guvi | **2024**
- RPA – UiPath | **2025**

Notable Achievements

- Winner – IEEE Ignite Project Expo (2025) organized by Kalasalingam University.
- Winner – Zenith2K25 Project Expo (2025) organized by K.Ramakrishnan College.
- Winner – IEEE Ignite Project Expo (2026) organized by Kalasalingam University.
